Ardsley Partners Renewable Energy Fund, L.P. (the “Fund”), launched in July 2006, is a long/short equity Fund focused on the renewable energy, clean technology, industrial and natural resource sectors. The Fund invests in companies seeking to solve the global energy and natural resource problem and in companies whose technologies offer alternatives or a more efficient use of natural resources. The Fund employs deep, fundamental research to generate superior returns through a portfolio of long and short public equity investments, regardless of economic conditions. The renewable energy sector performance has been a contributing factor to Ardsley’s success. The differentiated approach combines company specific research, sector analysis and a top-down macro-economic outlook to identify the best opportunities within each subsector and isolate individual alpha generating shorts. The parent firm, based in Stamford, C.T., was founded in 1987 and is one of the oldest hedge fund managers in the USA.

Barclays is an international financial services provider engaged in personal banking, credit cards, corporate and investment banking and wealth management with an extensive presence in Europe, the Americas, Africa and Asia. Barclays’ purpose is to help people achieve their ambitions – in the right way.

With over 300 years of history and expertise in banking, Barclays operates in over 50 countries and employs approximately 140,000 people. Barclays moves, lends, invests and protects money for customers and clients worldwide. For further information about Barclays, please visit our website www.barclays.com.
Deutsche Bank uses its capabilities as a global investment bank to create economic opportunities in distressed communities in the US and around the developing world by financing social enterprises and projects that provide essential services like affordable housing, microfinance, health, education and energy.

We support social enterprises and projects by providing diversified products ranging from near-commercial debt to philanthropic loans; we seek to optimize social impact through financially sustainable strategies. We create innovative investment funds, harnessing capital from various sources: private and institutional investors, development financial institutions and foundations.

Since 1990 this strategy has positioned DB as a leader and trusted partner within social finance. The DB Global Social Finance group has deployed over $2.5 billion to low-income communities using this strategy. It’s also proven to be wise and prudent investing with consistent financial returns and a 99% repayment record.

MicroVest is an asset management firm that has been created to offer investors unique global investment opportunities. We seek to invest capital in under-banked markets providing financial services for rising middle class communities around the world. In our view, applying a commercial framework to investing in under-banked markets is the best and most sustainable way to reduce poverty on a global scale. We believe our detailed due diligence process and focus on aligning values can result in meaningful financial returns.

MicroVest manages a family of funds that seek to provide private capital to financial institutions that in turn make loans to entrepreneurs in rising middle class communities. As of June 30, 2014, MicroVest had $273 million in assets under management, including co-managed funds.
Northern Trust is one of the world’s leading asset management, asset servicing and banking firms, serving successful individuals, families and institutions around the globe. Northern Trust provides trust, custody, investment management, and banking services to individual and institutional clients throughout the world. As of June 30, 2014, Northern Trust has US $6.0 trillion in assets under custody and US $924.4 billion in assets under management. Northern Trust, a financial holding company based in Chicago, has a network of offices in 18 U.S. states and has international offices in 17 locations in North America, Europe, the Middle East and the Asia-Pacific region.

Reed Smith is a Global Relationship Law Firm with over 1800 lawyers in 25 cities. And for 9 years in a row, has been named among the top firms in the world for client services by BTI Consulting Group. Social impact finance continues to influence the social well-being and economic prosperity of millions of people and organizations worldwide. Reed Smith formalized a global Social Impact Finance Group (SIFG) in response to a growing demand from clients; it undertakes both pro bono and billable representations.

The SIFG initiatives focus on increasing access to funding for organizations that deliver both economic and social returns, such as microfinance institutions, impact investment funds and other social enterprises. Reed Smith’s SIFG consists of a cross-border, cross-practice team of lawyers, which sits across its offices. The group includes authorities from the structured finance, funds, banking, capital markets, tax and regulatory fields, as well as from groups such as commercial, corporate and litigation. Our lawyers are committed to making a difference to the lives of others through the support of these social impact finance and microfinance initiatives. We regularly advise on a range of social impact initiatives, including the establishment of funds, innovative investment structures, social impact bonds and other capital market solutions. We also provide training and research to support the microfinance legal sector. We represent organizations and individuals including investors, social entrepreneurs, financial institutions, private and institutional investors, social enterprises, charities, non-governmental organizations, and microfinance institutions.
TriLinc Global is a private investment management company dedicated to launching and managing innovative products intended to exponentially increase participation in impact investing. Founded in 2008, TriLinc aims to harness the power of private sector capital for good and has developed a systematic approach to impact investment packaging, registration, management and distribution, to attract capital at scale. Leveraging the experience and expertise of its partner-employees, TriLinc is building a robust offering of alternative investment products that promote sustainable solutions for some of the world’s intractable socio-economic and environmental challenges, offering investors the potential for market-rate financial returns and positive, measurable impact. TriLinc plays an active industry-building role with peers, investors, financial service providers and the general public, in order to grow and strengthen the impact investing sector. In particular, TriLinc forges innovative partnerships with financial institutions and academia and spearheads initiatives to develop young talent for the industry.
