IMPAX ASSET MANAGEMENT

Impax Asset Management ("Impax") was founded in 1998 as a specialist asset manager focused on investing in the transition to a more sustainable global economy.

Impax believes that demographic change, resource scarcity, inadequate infrastructure and environmental constraints will shape private sector markets profoundly. These trends, which will progressively drive the transition towards a more sustainable global economy, will lead to out-performance for well-positioned companies. Portfolios that account for the risk of both sudden shocks and long-term value erosion can out-perform.

Impax invests in companies with sustainable competitive advantages, track records of consistent returns on investment, and where it believes a company's attractive, bottom-up, financial characteristics and long-term opportunities are not reflected in its share price.

Impax manages funds and accounts for investors globally in four areas: actively managed, long-only equity, smart beta, real assets, and fixed income. Impax's investment teams review ESG factors when assessing risk.

MACARTHUR FOUNDATION

The John D. and Catherine T. MacArthur Foundation supports creative people, effective institutions, and influential networks building a more just, verdant, and peaceful world. MacArthur is placing a few big bets that truly significant progress is possible on some of the world's most pressing social challenges, including over-incarceration, global climate change, and nuclear risk. In addition to the MacArthur Fellows Program, the Foundation continues its historic commitments to the role of journalism in a responsible and responsive democracy and the strength and vitality of our headquarters city, Chicago.

To help meet those challenges, MacArthur has dedicated up to $500 million to impact investments. The funds are used to advance key Foundation programs, such as Climate Solutions, and to extend the reach of the impact investing market through the use of catalytic capital and innovative financing models, such as the $100-million fund, Benefit Chicago. Our efforts rest on our 35-year track record of impact investments that address poverty, social justice, and environmental challenges around the world.

TREEHOUSE INVESTMENTS, LLC

Treehouse Investments, LLC, is a privately owned investment fund dedicated to supporting long-term sustainable and scalable solutions that address some of the most critical global challenges.

We believe that the private sector is essential to addressing the pressing unmet market needs created by climate change, gender inequality, and uneven access to capital. At Treehouse Investments we recognize that supporting transformational business models and strategies not only benefits the planet and us as its inhabitants, but also represents a significant market opportunity. We expect that over the long term our investment approach will outperform those that focus on financial returns alone
